Product Catalogue

Built for beauty, strength, and durability, our furniture is available in an array of sizes which can be customized in the finish of your choice. You select from a range of options, each designed in-budget to intelligently allocate space. And we are here to guide you with our recommendations based on your budget and style preferences.

We ask questions to understand your space design and functionality objectives and refine your vision, aligning your design sensibility and expectations to match our furniture.

Our Speciality

Wooden Furniture
Modular Furniture
Metal Furniture

FINISHES & BRANDS

Laminates

This is how furniture have a very high resistance to humidity, heat and impact are born. Moreover, their lighter weight makes hinges last longer as well as ensuring soft and silent opening and closing movements over time. Available in numerous colours and finishes, even with a soft or metallic effect.

Glass & Acrylics

The refined qualities of glass and acrylics, one of the most fascinating and pure materials available, is a continuous source of inspiration for us. Gloss magnifies spaces, and matt is subtly refined; both are available in numerous colours.

Veneer & Wood

All the wood & Veneer finishes of our kitchens respect this pursuit of wellness through the tactility of surfaces: the sensation conveyed by the warmth and feel of the material at your fingertips makes ancestral sensations come to life.

Paints (PU & Duco)

Paint express their innate elegance to the full in the furniture by means of a vast range of colour options with matt or gloss finishes as well as some special "structured" finishes in metallic colours. Paints are based on a special varnish that ensures excellent impact resistance

PLY WOODS & HDMR

FINISHES
